

UPDATED TRAVEL ADVISORY: MOZAMBIQUE

Wednesday, 30 October 2024

Mozambique's opposition leaders have called for week-long protest action, including public demonstrations and a national strike, from **Thursday, 31 October 2024**. This follows recent election-related unrest that has already impacted border operations.

The situation remains volatile, and travellers can expect:

- Intermittent closures and delays at the Lebombo/Ressano Garcia Border Post
- Disruption to normal business operations
- Mass mobilisation and protest action in the country's capital, Maputo
- A nationwide strike affecting services
- Potential security force involvement

Please advise your clients to:

1. Defer non-essential travel to Mozambique during this period.
2. Avoid the Lebombo Border Post if possible – and monitor the situation at other border posts.
3. Exercise increased caution if travel is necessary.
4. Monitor local news and official communications.
5. Have contingency plans in place.

Where possible, please reach out to local suppliers and operators in Mozambique to explore postponement and rebooking options.

SATSA and Africa's Eden Tourism continue to monitor the situation and will provide updates as developments occur. The safety and security of travellers remains our primary concern.
